

## The Esh's **Commitment**

Your property deserves the best. We don't think folks in Kentucky and Tennessee should get stuck with generic prefab buildings, so we work hard to help each customer find or create the structure that's perfect for them. Whether it's a small cabin, a portable garage, or simply a storage shed, we believe each project deserves attention to detail and the best craftsmanship around.

## Why a Custom-Built Garage?

When it comes to building a custom garage, you should have as many options as possible. Prefab garages are great, but they don't work in every situation. That's why we offer more.

As garage builder, we not only create a wide selection of portable prebuilt garages, we also construct custom garages on-site for folks throughout the area. Whether you're looking for an attached or a detached garage, we can build it, customized specifically for your property.

## Custom Garage Standard Features

For a garage to withstand the elements, it's important that it's built on the right base. Our garage builders construct each custom garage with:

- ✓ Poured concrete floor to give the building a solid foundation
- ✓ Walls framed at 16" oc. with top & bottom wall plates
- ✓ Boxed-in corner studs to easily finish out the interior
- ✓ Trusses with steel gussets framed at 16" oc.
- ✓ Felt paper beneath roofing material & drip edge on all edges
- ✓ 6-year workmanship warranty

## Custom Garage Custom Options

- ✚ Choose siding and roofing materials from hundreds of color combinations
- ✚ Lay out and design the floor plan exactly as you want
- ✚ Add as many doors & windows as you like to the shell
- ✚ Add a workshop package with all the essentials
