

The Esh's **Commitment**

Your property deserves the best. We don't think folks in Kentucky and Tennessee should get stuck with generic prefab buildings, so we work hard to help each customer find or create the structure that's perfect for them. Whether it's a small cabin, a portable garage, or simply a storage shed, we believe each project deserves attention to detail and the best craftsmanship around.

Buildings for life.

Run-in **HORSE BARN**

Why a Horse Barn?

While horses are outdoor animals by nature, they still need occasional protection from the elements, whether it's the summer sun, the winter wind, or just the occasional thunderstorm. However, giving your horses the shelter they need shouldn't break the bank. Our run-in sheds are designed to be an easy, affordable solution to horse shelter. For folks that aren't ready to build a full barn, a horse run-in is the way to go.

Horse Barn Standard Features

To build a run-in shed that will hold up in the pasture, it's important to start with the right materials. Besides all their customizable features, our horse run-ins come standard with:

- ✓ Pressure-treated 4x6 runners
- ✓ Walls framed at 24" on-center with top and bottom wall plates
- ✓ Wooden wall lining to protect horses and the run-in walls
- ✓ Trusses with steel gussets
- ✓ A durable metal roof
- ✓ A front overhang, boxed in and finished with the same material as the siding.

Horse Barn Custom Options

- ✚ Our horse barns are fully customizable. Add wall enclosures, metal bar dividers, gates, or tack room of any size.
- ✚ Tack rooms can be added on the right, left, or middle of the horse barn.
- ✚ Horse barns can be built with a feed storage area.
